

UNIVERSITY OF NAIROBI
UNIVERSITY HEALTH SERVICES
ANNUAL REPORT - 2012

PREFACE

University Health Services (UHS) commits itself to give required support to the University in pursuit of its vision and mission. In this regard, UHS commits to manage resources at its disposal in a transparent and accountable manner. It is mandated to provide quality healthcare of international standard to the University community. Our daily operations are guided by UHS service delivery charter.

Updates

- In its bid to respond to growing demand for quality health care, more staff were appointed in health record, medical officers and clinical officers
- UHS intends to review its 2008 – 2013 strategic plan in the year 2013.

Strategic Issues

- 4.1 To enhance efficiency in providing timely and quality health care by automating two satellite clinics by year 2014.
- 4.2 Expanding, renovating and modernizing physical facilities, medical equipment and services by end of year 2014.
- 4.3 Articulating for reviewing and implementation of scheme of service for all cadres of human resources for health at UHS.

Achievements

- Continuous provision of quality medical services
- Acquisition of medical and theatre equipment
- Renovation and painting of buildings senior staff clinic, theatre, laboratory and sick bay
- Relocated student clinic registry to a bigger space
- Acquisition and Provision of furniture and computers in offices and consultation rooms

Challenges facing UHS

- Independence in determining, sourcing, and acquiring health care resources needed for delivery of quality health services is limited.
- Rising demand for quality health care by university community against available few resource e.g. space, ambulances and personnel.
- Implementation of scheme of services for all cadres of human resources for health at UHS.

FUTURE PROJECTIONS

Infrastructure

- Relocate and renovate Kenya science clinic
- Renovate Medical school Clinic
- Purchase of well equipped Ambulances

Clinical Services

- To expand laboratory services to Kikuyu, Upper and Lower Kabete campuses by 2014
- Purchase assortment of clinical instruments for satellite clinics

Human Resources Requirements

- Review staffing levels for all cadres to rationalize and right size.
